

**Gynecologic Cancer InterGroup  
Cervix Cancer Research Network**

# **CCRN Workshop**

Bangkok

January 2016

Henry Kitchener

University of Manchester

Cervix Cancer Education Symposium, January 2016, Bangkok, Thailand

# Gynecologic Cancer InterGroup Cervix Cancer Research Network

---

## Aims

- To improve cervical cancer care in non GCIg countries
- To increase participation in cervical cancer trials in these countries
- To increase cervical cancer awareness

Cervix Cancer Education Symposium, January 2016, Bangkok, Thailand

# Gynecologic Cancer InterGroup Cervix Cancer Research Network

## Aims of the Bangkok Workshop

- To facilitate participation in cervical cancer trials; from concept to accrual to outcome
- To develop an interactive, fully involved group, to collaborate in trials and to act as champions

Cervix Cancer Education Symposium, January 2016, Bangkok, Thailand

## **Overall Objectives of this Bangkok Workshop**

- To continue the development of CCRN
  - Engagement
  - Exchanges of views
  - collaboration
- To increase awareness of developments in radiation therapy
- To provide an opportunity for CCRN
  - To learn from participants
  - To “brainstorm” and discuss challenges and new ideas for trials
  - To develop concepts to take forward

Cervix Cancer Education Symposium, January 2016, Bangkok, Thailand

# Gynecologic Cancer InterGroup Cervix Cancer Research Network

## Specific Objective

- To promote the TACO Trial which compares tri-weekly and weekly cisplatin in chemoradiation for advanced cervical cancer
- TACO is currently recruiting from Korea/Thailand/Vietnam and urgently needs increased accrual

Cervix Cancer Education Symposium, January 2016, Bangkok, Thailand
