

Harmonization Committee

November 10-11, 2015

Harmonization Committee

- Major focus on 2 topics:
- Budgeting in Intergroup trials - preliminary presentations on overview and costing, templates, and survey results
- Communication in Intergroup Trials- presentation utilizing the ENGOT model on methods and importance of frequent communication by Newsletters, Teleconferences, emails, F2F when possible

Harmonization Committee

- Both Focus topics have goals consisting of the creation of templates to be utilized
- Brief Presentation and examples of Trial Closure Letters focusing on when, where, and why they may be written and who would receive them

Harmonization Committee

- Discussion regarding Publication Status of 3 posters presented at IGCS
 - Workings of Harmonization Committee is being revised to be resubmitted to
 - Ovarian Cancer follow-up assessment MS in initial draft-journal TBD
 - BRCA testing survey included in other survey and has been accepted by the IJGC

Harmonization Committee

- Quality Assurance

QA recommendations from the strategic planning meeting were discussed. A QA plan will continue to be developed and input from the Executive Board and relevant Committees will be solicited

- Upon collaboration with Stats, we have determined a presentation and discussion on PRO's will be a major focus point for May 2016
